

HIGH VISIBILITY CLOTHING

SPARVIERO waistcoat

MC3517

MATERIALS

100% polyester.

GRAMMAGE

120 g/m²

FEATURES

High-visibility vest made of polyester. Class 1 certified for high visibility, the garment ensures a basic level of visibility in daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. The heat-sealed and segmented reflective strips conform optimally to body movements, offering greater comfort and freedom of movement. More resistant and durable than traditional strips, they are strategically positioned on the chest and shoulders. The lower part of the vest is made of dark fabric, ideal for concealing potential stains and maintaining a tidy appearance throughout the work shift. The design is simple and functional, intended to be worn over other garments without compromising freedom of movement. The front zipper closure ensures a stable and secure fit during work activities.

DETAILS

- 2 lower pockets, closed by flap and Velcro, to ensure quick and convenient access to smaller items;
- Mobile phone pocket and pen holder on the left;
- Badge holder on the right.

CLOSING

Zip.

REFLEX

Heat-sealed reflective band on chest and shoulders.
