

# HIGH VISIBILITY CLOTHING

## MISTRAL bermuda

### MC3520E1

#### MATERIALS

Mistral 55% cotton and 45% polyester.

#### WEIGHT

245 g/m²

#### FEATURES

Work bermudas made of polycotton, with a high percentage of cotton ensuring natural thermoregulation. The fabric helps maintain the body's thermal balance, reducing the impact of environmental variations thanks to cotton's ability to interact with the internal microclimate. It is the summer version of our certified High-Visibility garments. The fabric surface enhances liquid and dirt repellent properties. Certified Class 2 for high visibility, it ensures a medium-high level of visibility in both daylight and nighttime conditions, even with artificial lighting such as vehicle headlights. The 5 pockets make it extremely functional and practical, allowing essential tools and items to always be within reach during work. The side elastic waistband contributes to an ergonomic and functional fit, making the garment suitable for a wide range of operational contexts. The reflective bands applied to the legs further increase the garment's visibility. Double stitching ensures greater mechanical resistance and durability over time, making the garment reliable even under intensive use conditions. The garment is certified to maintain its safety and high visibility characteristics for up to 50 wash cycles, ensuring consistent performance over time.

#### DETAILS

- 2 reinforced patch pockets with side entry;
- 2 back pockets closed with flap and velcro, to ensure quick and convenient access to smaller items;
- Technical pocket with pen holder, closed with flap and velcro, allowing for storing bulkier items without the risk of them falling out;
- Side elastic waistband, for an ergonomic and comfortable fit.

#### CLOSING

Zip and button.

#### REFLEX

Double sewn reflective bands.
