

HIGH VISIBILITY CLOTHING

GREEN COLOR trousers

MC3526

MATERIALS

Yellow high visibility 55% cotton and 45% polyester. Green 65% polyester and 35% cotton.

GRAMMAGE

245 g/m²

FEATURES

Work trousers made of polycotton, with a high percentage of cotton that ensures natural thermoregulation. The fabric contributes to maintaining the body's thermal balance, reducing the impact of environmental variations thanks to cotton's ability to interact with the internal microclimate. Class 2 high-visibility certified, they ensure a medium-high level of visibility in both daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. The lower part of the trousers is made of high-visibility fabric, contrasting with the upper part in green fabric, a solution that improves operator visibility in low-light situations. The 6 pockets make them extremely functional and practical, allowing essential tools and items to always be within reach during work. The reflective strips applied to the lower leg further increase the garment's visibility.

DETAILS

- 2 front pockets, to ensure quick and easy access to smaller items;
- Tape measure pocket on the right;
- Multifunctional pocket with mobile phone holder and pen holder on the left, allows for storing bulkier items without the risk of them falling out;
- 2 rear pockets;
- Contrast fabric on the upper part and high-visibility fabric on the lower part of the legs.
- Double stitching in areas most subject to stress and wear, to ensure greater resistance and durability.

CLOSING

Zip and button.

REFLEX

Double sewn reflective bands.

QUANTITY PER CARTON

20

AVAILABLE COLOURS

 EF - Hi-vis yellow/green
