

HIGH VISIBILITY CLOTHING

MISTRAL COLOR coverall

MC3528

MATERIALS

Mistral 55% cotton and 45% polyester.

GRAMMAGE

245 g/m²

FEATURES

Work coverall made of polycotton, with a high percentage of cotton that ensures natural thermoregulation. The fabric contributes to maintaining the body's thermal balance, reducing the impact of environmental variations thanks to cotton's ability to interact with the internal microclimate. It is the summer version of our certified High Visibility garments. The fabric surface enhances liquid and dirt repellency. Certified Class 3 for high visibility, it ensures the maximum level of visibility in both daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. The upper part of the coverall is made of high visibility fabric, contrasting with the lower part of the sleeves and legs in dark fabric, a solution that improves visibility, as well as the aesthetics and presentation of the garment even after prolonged use. The 4 pockets make it functional and practical, allowing essential tools and items to always be within reach during work. The reflective bands applied around the chest, sleeves, and leg bottoms further increase the garment's visibility. The elasticated back waistband contributes to an ergonomic and functional fit, making the garment suitable for a wide range of operational contexts. Double stitching ensures greater mechanical resistance and durability over time, making the garment reliable even under intensive use conditions. The garment is certified to maintain its safety and high visibility characteristics for up to 50 wash cycles, ensuring consistent performance over time.

DETAILS

- 2 patch pockets with side entry, to ensure quick and easy access to smaller items;
- Ruler pocket on the right;
- Chest pocket with flap and velcro closure;
- Back elasticated waistband, for an ergonomic and comfortable fit;

- Double stitching in high-wear areas, for increased garment durability.
- Main high-visibility fabric and contrast fabric on the lower part of the sleeves and legs, collar, and pocket flap, for a better aesthetic presentation of the garment even after prolonged use.

CATEGORY

II -> This product is currently planned and produced to comply with Regulation (EU) 2016/425 and subsequent modifications.
