TECHNICAL SHEET

HIGH VISIBILITY CLOTHING

SPACE jacket

MC3532H1

MATERIALS
100% polyester knitted fabric

WEIGHT
125 g/m²

FEATURES
High-visibility jacket made of perforated polyester, a material that ensures excellent breathability even during prolonged use in hot environments or intense working conditions. The micro-perforated structure promotes air circulation, contributing to operator comfort and reducing the sensation of heat. Certified Class 3 for high visibility, the garment ensures a high level of visibility in daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. The garment is equipped with double reflective bands, strategically positioned on the chest to ensure optimal visibility. The jacket is equipped with integrated long sleeves, designed to ensure extended coverage of the upper limbs and ensure the continuity of high-visibility protection.

DETAILS
• V-neck jacket, allows for comfortable wearing of clothing under the vest.

CLOSING
Velcro

REFLEX
Two reflective bands around the chest. Double reflective bands around the sleeves. Vertical bands on shoulders.
