

HIGH VISIBILITY CLOTHING

ISTANBUL waistcoat

MC3533H1

MATERIALS

98% polyester and 2% conductive fiber.

WEIGHT

120 g/m²

FEATURES

High-visibility vest made of polyester; thanks to the presence of conductive fiber, the garment has antistatic properties. Class 2 certified for high visibility, the garment ensures a medium-high level of visibility in daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. The garment features dual reflective bands, strategically positioned on the chest to ensure optimal visibility. The design is simple and functional, intended to be worn over other garments without compromising freedom of movement.

DETAILS

- Anti-static, reduces the accumulation of static electricity on the body.

CLOSING

Zip covered by a Velcro-fastened flap.

REFLEX

Double reflective bands
