TECHNICAL SHEET

HIGH VISIBILITY CLOTHING

ATLAS waistcoat

MC3550E1

MATERIALS

100% polyester highly breathable perforated mesh fabric

WEIGHT

150 g/m²

FEATURES

High-visibility vest made of polyester. Certified Class 2 for high visibility, the garment ensures a medium-high level of visibility in daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. The vest features a reflective band applied to the chest and front shoulder, ensuring effective visibility in both urban and extra-urban environments. Its 3 pockets make it functional and practical, allowing essential tools and items to always be within reach during work. The design is simple and functional, intended to be worn over other garments without compromising freedom of movement. The front zipper closure ensures a stable and secure fit during work activities.

DETAILS

- Heart-side chest pocket, double compartment with PVC badge holder and pen holder with an attached D-ring, allows badges and pens to be kept neatly within reach, improving practicality and quick access to work tools. The D-ring adds the possibility of attaching small accessories;
- Gas detector holder loop on the left, above the shoulder panel, ensures secure and easily accessible positioning of the gas detector, improving workplace safety and speed of intervention in case of emergency;
- Two three-dimensional lower pockets with flap and Velcro, and a compartment with a side opening, offer ample space for storing tools or bulky items, keeping them protected thanks to the flap with Velcro. The side opening allows quick access without having to fully open the pocket.

REFLEX

Double reflective band on the chest and front shoulder yoke, plus two transverse bands on the shoulders.
