

HIGH VISIBILITY CLOTHING
MISTRAL STRETCH trousers
MC3551HA

MATERIALS

77% polyester, 20% cotton, 3% spandex.

GRAMMAGE

245 g/m²

FEATURES

Work trousers made of stretch fabric, designed to offer maximum protection to those working in hazardous environments, as well as maximum comfort. The stretch fabric ensures excellent freedom of movement, allowing the operator to assume various positions during work. Certified to Class 2 for high visibility, the garment guarantees a medium-high level of visibility in daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. The heat-sealed and segmented reflective bands optimally adapt to body movements, offering greater comfort and freedom of action: together with the transverse reflective inserts, they further contribute to increasing the garment's visibility. Reinforced seams ensure greater mechanical resistance and durability over time, making the garment reliable even under intensive use conditions. The upper part of the trousers is made of high-visibility fabric, contrasting with the lower part in dark fabric, a solution that improves visibility, as well as the aesthetics and presentation of the garment even after prolonged use. The side elasticated waistband further improves the garment's ergonomics and its versatility in use. The 5 pockets make it extremely functional and practical, allowing essential tools and items to always be within reach during work.

DETAILS

- 2 reinforced side-entry patch pockets, ensuring quick and convenient access to smaller items;
- Three-dimensional technical pocket with flap and velcro closure on the left, allowing for the storage of bulkier items without the risk of them falling out;
- Tape measure pocket on the right;
- Rear pocket with flap and velcro closure;
- Elasticated back waistband, for an ergonomic and comfortable fit;
- Double stitching in high-wear areas, for enhanced garment durability;

CLOSING

Zip and rivet button.

REFLEX

Double reflective segmented heat-sealed bands on the lower leg
