

HIGH VISIBILITY CLOTHING

MISTRAL 200 trousers

MC3552L1

MATERIALS

55% cotton, 45% polyester

WEIGHT

200 g/m²

FEATURES

Work trousers made of polycotton, with a high percentage of cotton that ensures natural thermoregulation. The fabric contributes to maintaining the body's thermal balance, reducing the impact of environmental variations thanks to cotton's ability to interact with the internal microclimate. It is the summer version of our certified High Visibility garments, with an even lighter weight. The fabric surface enhances liquid and dirt repellent properties. Certified Class 2 for high visibility, it ensures a medium-high level of visibility both in daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. The 5 pockets make it extremely functional and practical, allowing essential tools and objects to always be within reach during work. The heat-sealed and segmented reflective bands adapt optimally to body movements, offering greater comfort and freedom of action. More resistant and durable than traditional bands, they are strategically positioned on the lower leg. The double seams ensure greater mechanical resistance and durability over time, making the garment reliable even under intensive use conditions. The garment is certified to maintain its safety and high visibility characteristics for up to 50 wash cycles, ensuring consistent performance over time.

DETAILS

- 2 reinforced patch pockets with side entry, to ensure quick and convenient access to smaller items;
- Technical patch pocket closed with flap and velcro on the left, allows storing bulkier items, without the risk of them falling out;
- Ruler pocket on the right;
- Back pocket closed with flap and velcro;
- Rear elastic waistband, allows maximum freedom of movement, without restrictions;

- Double stitching in the areas most subject to stress and wear, to ensure greater resistance and durability;
- In the HD and ED colour variants: high-visibility fabric on the upper part and contrasting fabric on the lower part of the leg, waistband and pocket flaps.

CLOSING

Central closure with zipper and button

REFLEX

Double heat-sealed segmented reflective bands on the lower leg. Transverse reflective inserts.
