TECHNICAL SHEET

HIGH VISIBILITY CLOTHING

VELVET COLOR bib-trousers

MC3613ED

MATERIALS
Velvet fustian fabric 60% cotton and 40% polyester

WEIGHT
350 g/m²

FEATURES
Work bib overalls made of polycotton, with a high percentage of cotton that ensures natural thermoregulation. The fabric contributes to maintaining body thermal balance, reducing the impact of environmental variations thanks to cotton's ability to interact with the internal microclimate. It is the winter version of our certified High Visibility garments. The fabric offers thermal comfort, tenacity, and robustness, combined with excellent wash resistance. Certified Class 2 for high visibility, it ensures a medium-high level of visibility both in daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. The 5 pockets make it extremely functional and practical, allowing you to always have indispensable tools and objects at hand during work. The elasticated braces allow for high freedom of movement for the operator during work activities. Integrated rear kidney protection for greater protection of the lumbar area. The upper part of the bib overalls is made of high-visibility fabric, contrasting with the lower part in dark fabric, a solution that improves visibility, as well as the aesthetics and presentation of the garment even after prolonged use. The reflective bands applied to the leg hem further increase the garment's visibility. The double seams ensure greater mechanical resistance and durability over time, making the garment reliable even under intensive use conditions. The garment is certified to maintain its safety and high visibility characteristics for up to 50 wash cycles, ensuring consistent performance over time.

DETAILS
- Elasticated suspenders with quick-release fasteners, for a secure, comfortable, and easily adjustable fit;
- Bib pocket closed by flap and Velcro, allows storing bulkier items without the risk of them falling out;

- 2 patch pockets with side entry, to ensure quick and convenient access to smaller items;
- Ruler pocket on the right;
- Back pocket closed by flap and Velcro;
- Rear lumbar protection, for additional protection of the lumbar area;
- Double stitching in areas most subject to wear, for increased garment durability;

CLOSING
Waist with buttons.

REFLEX
Double sewn reflective bands.
