TECHNICAL SHEET

HIGH VISIBILITY CLOTHING

VELVET trousers

MC3615E1

MATERIALS
Velvet fustian 60% cotton and 40% polyester.

WEIGHT
350 g/m²

FEATURES
Work trousers made of polycotton, with a high percentage of cotton that ensures natural thermoregulation. The fabric contributes to maintaining the body's thermal balance, reducing the impact of environmental variations thanks to cotton's ability to interact with the internal microclimate. It is the winter version of our certified High Visibility garments. The fabric offers thermal comfort, tenacity, and robustness, combined with excellent wash resistance. Certified Class 2 for high visibility, it ensures a medium-high level of visibility in both daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. The 5 pockets make it extremely functional and practical, allowing essential tools and objects to always be within reach during work. The reflective bands applied to the leg bottoms further increase the garment's visibility. The rear elastic waistband contributes to an ergonomic and functional fit, making the garment suitable for a wide range of operational contexts. Double stitching ensures greater mechanical resistance and durability over time, making the garment reliable even under intensive use conditions. The garment is certified to maintain its safety and high visibility characteristics for up to 50 wash cycles, ensuring consistent performance over time.

DETAILS
- 2 reinforced patch pockets with side entry, to ensure quick and convenient access to smaller items;
- Three-dimensional technical pocket closed with flap and velcro on the left, allowing for storing bulkier items without the risk of them falling out;
- Ruler pocket on the right;
- Back pocket closed with flap and velcro;
- Back elasticated waistband;
- Double stitching in high-wear areas, for increased garment durability.

CLOSING
Zip and button.

REFLEX
Double sewn reflective bands.
