TECHNICAL SHEET

HIGH VISIBILITY CLOTHING

VELVET short jacket

MC3616E1

MATERIALS
Velvet fustian 60% cotton and 40% polyester.

WEIGHT
350 g/m²

FEATURES
Work jacket made of polycotton, with a high percentage of cotton that ensures natural thermoregulation. The fabric helps maintain the body's thermal balance, reducing the impact of environmental variations thanks to cotton's ability to interact with the internal microclimate. It is the winter version of our certified High-Visibility garments. The fabric offers thermal comfort, tenacity, and robustness, combined with excellent wash durability. Certified Class 2 for high visibility, it ensures a medium-high level of visibility in both daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. The large chest pockets make the jacket functional and practical, allowing essential tools and items to always be within reach during work. The double reflective bands applied to the waist and sleeves further increase the garment's visibility. The double seams ensure greater mechanical resistance and long-term durability, making the garment reliable even under intensive use conditions. The garment is certified to maintain its safety and high-visibility characteristics for up to 50 wash cycles, ensuring consistent performance over time.

DETAILS
- Two chest pockets with flap and Velcro closure, one of which is three-dimensional and features a pen holder, equipped with a detachable badge holder, to ensure quick and convenient access to small and medium-sized items;
- Double stitching in high-stress and wear areas, for increased strength and durability.

CLOSING
Zip covered by a flap and Velcro.

REFLEX
Double reflective bands sewn on sleeves and jacket hem.

REMARKS
Update of 11/11/2025 - 50-wash certification available from lots chronologically subsequent to lot no. 836082508
