TECHNICAL SHEET

HIGH VISIBILITY CLOTHING

STORM RUSH bodywarmer

MC3631EE

MATERIALS
Softshell 94% polyester, 6% elastane, TPU laminated, bonded with 100% polyester microfleece.

WEIGHT
310 g/m²

FEATURES
Work Softshell Vest, lightweight and functional, made of windproof, water-repellent, and breathable stretch material. Practical with a modern fit for use during most of the year. The TPU coating provides the garment with a waterproof and windproof barrier, while maintaining good flexibility and comfort. The microfleece lining makes the garment suitable for low temperatures and ensures thermal comfort; it can be worn as a vest or layered over another jacket to increase the feeling of warmth. Certified Class 1 for high visibility, the garment ensures a basic level of visibility in daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. The windproof high collar, with microfleece lining, effectively protects the cervical area. The heat-sealed and segmented reflective bands optimally adapt to body movements, offering greater comfort and freedom of movement. More resistant and durable than traditional bands, they are strategically positioned on the chest and shoulders. The 3 pockets make it functional and practical, allowing essential tools and items to always be within reach during work.

DETAILS
- Inner collar in microfleece, for effective protection of the cervical area;
- 2 windproof lower pockets, to ensure quick and convenient access to smaller items;
- Covered vertical chest pocket closed with a waterproof zipper, for waterproof protection of items stored inside;
- Loop for gas detector housing on the right.

CLOSING
Zip.

REFLEX
Double heat-sealed and segmented reflective bands around the chest. Single heat-sealed and segmented reflective band on shoulders.
