TECHNICAL SHEET

HIGH VISIBILITY CLOTHING

MISTRAL UV t-shirt

MC3813E1

MATERIALS
Double Jersey Pique 55% cotton, 45% polyester

WEIGHT
175 g/m²

FEATURES
Work t-shirt designed to offer comfort and protection during work activities. Constructed with an inner cotton layer, it ensures excellent breathability and a pleasant feel against the skin. It also helps maintain body thermal balance, reducing the impact of environmental variations due to cotton's ability to interact with the internal microclimate. The UV 50+ UPF treatment provides effective sun protection, making it ideal for outdoor use. Certified Class 2 for high visibility, it ensures a medium-high level of visibility in both daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. Reflective bands applied around the chest and vertically on the shoulders further enhance the garment's visibility. Suitable for industrial washing, it maintains its quality even after numerous wash cycles.

DETAILS
• Round neck model, provides practicality and makes it suitable for various work situations.

REFLEX
Two reflective bands around the chest. Vertical reflective band on the shoulders.
