

HIGH VISIBILITY CLOTHING

STRETCH LIGHT MISTRAL t-shirt

MC3826

MATERIALS

Double Jersey Piquet 55% cotton, 45% recycled polyester.

GRAMMAGE

150 g/m²

FEATURES

A work t-shirt designed to provide comfort and protection during work activities. Made with cotton on the inside, it ensures excellent breathability and a pleasant feel on the skin, while also maintaining body thermal balance, reducing the impact of environmental variations thanks to cotton's ability to interact with the internal microclimate. Certified Class 2 for high visibility, it ensures a medium-high level of visibility both in daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. The heat-sealed and segmented reflective bands, applied around the chest and armholes, further increase the garment's visibility.

DETAILS

- V-neck model, offering practicality and making it suitable for various professional settings.

REFLEX

Two heat-sealed segmented reflective bands on the chest and arms.

REMARKS
