TECHNICAL SHEET

HIGH VISIBILITY CLOTHING

CIRCUS sweatshirt

MC3916E1

MATERIALS

Fleece fabric 65% polyester, 35% cotton.

WEIGHT

300 g/m²

FEATURES

Work sweatshirt made of fleece fabric with an anti-pilling finish, designed to offer warmth and comfort even on the coldest days. Its robust and resistant structure makes it perfect for professional use, while the inner material ensures excellent thermal insulation without compromising freedom of movement. Certified Class 3 for high visibility, it guarantees the highest level of visibility both in daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. The drawstring hood is designed to offer thermal insulation according to environmental conditions. The high collar, raised by 7 cm, effectively protects the cervical area, while the elasticated cuffs contribute to maintaining thermal comfort, ensuring an ergonomic closure that remains stable even during movement. The heat-sealed and segmented reflective bands adapt optimally to body movements, offering greater comfort and freedom of action. More resistant and durable than traditional bands, they are strategically positioned on the chest, sleeves, and shoulders. They significantly increase the operator's visibility, improving safety during work activities. The 2 lower pockets make it functional and practical, allowing you to always have essential tools and items at hand during work.

DETAILS

- Hood with drawstring, for additional thermal protection;
- 7 cm raised collar height, effectively protects the anterior cervical area;
- 2 lower side pockets, to ensure quick and convenient access to smaller items;
- Elasticated knit cuffs, for an ergonomic closure that contributes to thermal comfort.

CLOSING

Contrasting color zip.

REFLEX

Segmented and heat-sealed reflective bands on chest, sleeves, and shoulders.
