TECHNICAL SHEET

HIGH VISIBILITY CLOTHING

HI-VIS COMFORT fleece

MC3928E1

MATERIALS
100% micropile 144F

WEIGHT
310 g/m²

FEATURES
Made from 100% 144F microfleece, 310 g/m², this garment combines comfort, functionality, and protection in a design engineered to meet the challenges of daily work. The central zip adds a dynamic touch, while the high collar ensures effective protection for the cervical area against external elements. Its 3 pockets make it extremely functional and practical, allowing essential tools and items to always be within reach during work. Certified Class 2 for high visibility, the garment ensures a medium-high level of visibility in both daytime and nighttime conditions, even with artificial lighting such as vehicle headlights. The cuffs and hem are finished with elasticated knit fabric, ensuring a comfortable and snug fit. For enhanced visibility in low-light conditions, the fleece is equipped with reflective bands sewn around the chest, arms, and shoulders, actively contributing to operator safety.

DETAILS
- Full-length central zip closure;
- High collar, effectively protects the cervical area from potentially harmful external agents;
- Vertical chest pocket with zip closure;
