

RAINWEAR

OXFORD GLAMOUR jacket

MC4012

MATERIALS

100% polyester Oxford 300 D heat-sealed PU coated.

GRAMMAGE

190 g/m²

FEATURES

Work jacket designed to ensure total protection from rain and wind, while maintaining high breathability. Made from elastic and flexible fabric, it promotes comfort and dynamism in movements, making it ideal for those who work in adverse weather conditions. The structure is extremely resistant to wear and tear, while the anti-acid properties and resistance to fuels increase its durability and safety. Furthermore, the garment is machine washable, ensuring practicality in maintenance. The PU coating makes it waterproof and wind-resistant, without compromising flexibility. Certified in class 3 for high visibility, the garment ensures the maximum level of visibility in daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. The reflective bands applied to the torso and sleeves further increase the visibility of the garment. The design integrates a hood with a retractable drawstring via zipper, designed for immediate protection when needed. The waterproof pockets closed with flaps offer security for personal items, while the covered mesh ventilation on the shoulders improves breathability. The cuffs with windproof elastic and the drawstring at the hem ensure a snug and protective fit, while the heat-sealed seams ensure superior waterproofing even in the most critical areas.

DETAILS

- Foldaway drawstring hood with zip, deployable as needed for weather protection;
- Two waterproof pockets with flap closure, for quick access to small everyday items;
- Covered mesh ventilation on the shoulders, improving garment breathability;
- Taped seams, enhancing the garment's waterproofness even in the most critical areas;

- Windproof elastic cuffs, for an ergonomic and stable fit that prevents the entry of external weather elements;
- Drawstring at the bottom, for an ergonomic fit suitable for various body types.

QUANTITY PER CARTON

10
