

RAINWEAR

GLAMOUR long coat

MC4013

MATERIALS

Wonderflex, waterproof and breathable, 100% polyester PU coated.

GRAMMAGE

190 g/m²

FEATURES

High-visibility rain coat, designed to offer maximum protection against rain and wind, while ensuring breathability and comfort. Made of Wonderflex fabric, composed of a polyurethane layer on a polyester base, it ensures total waterproofing without sacrificing the garment's breathability. Its elastic and flexible structure promotes freedom of movement and dynamism, while its resistance to wear and tear makes it ideal for intensive use in demanding work environments. The fabric has anti-acid properties, is resistant to gasoline, and can be machine washed, ensuring practicality and durability over time. The PU coating makes it waterproof and wind-resistant, without compromising flexibility. Certified in class 3 for high visibility, the garment ensures the maximum level of visibility in daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. The heat-sealed reflective bands adapt optimally to body movements, offering greater comfort and freedom of action. More resistant and durable than traditional bands, they are strategically positioned on the chest and sleeves. The reflective piping on the armholes completes the visibility profile. The coat features a hood with an elastic edge, retractable via snap buttons, designed for immediate protection when needed. The waterproof lower pockets, closed with flaps and snap buttons, offer security for personal items, while the elasticated windproof cuffs improve protection against the elements. The heat-sealed seams complete the structure, ensuring total waterproofing even in the most critical areas. The length below the knee increases the extent of the protected body area.

DETAILS

- Below-the-knee length;
- Foldaway hood with elasticated edge, secured by snap buttons, usable when needed to provide protection from weather elements;
- Two lower water-resistant pockets with flap and snap button closure, for quick access to small everyday items;
- Elasticated windproof cuffs, for an ergonomic and stable fit that prevents the entry of external weather elements;
- Heat-sealed seams, increasing the garment's waterproofness even in the most critical areas.

CLOSING

Zipper covered by a flap closed with snap buttons.

REFLEX

Double heat-sealed reflective bands. Reflective piping on sleeves.

AVAILABLE COLOURS

E1 - Hi-vis yellow

H1 - Hi-vis orange
