

HIGH VISIBILITY CLOTHING

Motorway jacket

MC4113E1

MATERIALS

Oxford 300D PU water-repellent lamination, 100% polyester.

WEIGHT

Padding 200 g/m²

FEATURES

A work jacket made from a versatile fabric designed to ensure maximum safety for those working in hazardous environments. Thanks to its waterproof and breathable properties, it offers extremely effective protection in adverse weather conditions. Certified Class 3 for high visibility, the garment ensures the highest level of visibility in both daytime and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. Reflective bands sewn around the chest, arms, and shoulders significantly increase operator visibility, enhancing safety during work activities. The 300D Oxford fabric with water-repellent polyurethane lamination provides the garment with high resistance to water penetration, making it particularly suitable for use in demanding environments and adverse weather conditions, without compromising the material's durability and flexibility. The padding also makes it ideal for colder climates. The jacket features a foldaway hood with a drawstring, designed for use in adverse environmental conditions such as rain or wind. When not in use, it can be stored inside the collar, without creating bulk or compromising the operator's freedom of movement. The collar with a contrasting anti-dirt trim and insert ensures a better aesthetic appearance of the garment even after prolonged use. The 5 pockets, including 2 waterproof ones, make it extremely functional and practical, allowing essential tools and items to always be within reach during work. The elasticated knit windproof cuffs are designed to ensure an ergonomic and snug fit at the wrist, effectively limiting the penetration of liquids, wind, and other extreme weather elements, contributing to the maintenance of the internal microclimate and the user's thermal comfort.

DETAILS

- Foldaway hood with drawstring, deployable as needed to provide protection from weather elements;
- Collar with trim and dirt-resistant contrast insert, for a better aesthetic presentation of the garment even after prolonged use;
- Right chest pocket for mobile phone, closed with velcro, with a removable, retractable badge holder;
- Two lower waterproof pockets, closed with flap and velcro, allow storing bulkier items without the risk of them falling out;
- Internal pocket closed with velcro, for valuables such as a wallet or document holder;
- Vertical pocket closed with zipper;
- Windproof cuffs in stretch knit, for an ergonomic closure that contributes to thermal comfort.

CLOSING

Zipper covered by a flap closed with snap buttons.

REFLEX

Reflective bands on chest, sleeves, and shoulders.

AVAILABLE COLOURS

- E1 - Hi-vis yellow
- H1 - Hi-vis orange
