

HIGH VISIBILITY CLOTHING

DRIVER jacket

MC4114EC

MATERIALS

Oxford 150 D PU water-repellent lamination, 100% polyester. Blue Oxford quilt, 80% polyester and 20% cotton.

WEIGHT

180 g/m²

FEATURES

Work jacket made of versatile fabric designed to ensure maximum safety for those working in hazardous environments. The Oxford 150D fabric with water-repellent polyurethane lamination gives the garment high resistance to water penetration, making it particularly suitable for use in harsh environments and adverse weather conditions, also thanks to its windproof properties. Warm and soft on the inside, the detachable sleeves make it a functional garment designed to offer comfort and protection from low temperatures. Certified Class 2 for high visibility, the garment ensures a medium-high level of visibility in daytime and nighttime light conditions, even in the presence of artificial lighting such as vehicle headlights. The reflective bands sewn on the chest significantly increase the operator's visibility, improving safety during work activities. The 4 chest pockets make the jacket functional and practical, allowing essential tools and objects to always be within reach during work. The two-way zipper offers greater versatility and comfort: it allows the jacket to be opened from both the top and the bottom, facilitating movement, improving ventilation, and making it perfect even when sitting or engaged in dynamic activities.

DETAILS

- Detachable sleeves with a zip, offering various usage options;
- Contrasting dirt-resistant collar trim, for a better aesthetic presentation of the garment even after prolonged use;
- 2 lower pockets with snap buttons, allowing smaller items to be stored without the risk of them falling out;
- Vertical zippered chest pocket;
- Internal pocket with Velcro closure, for valuables such as a wallet or document holder;
- Anti-pilling cuffs, for increased wear resistance.

CLOSING

Double slider zip

REFLEX

Reflective bands sewn on chest and sleeves.
