

HIGH VISIBILITY CLOTHING ROWANIEMI coverall MC4122

MATERIALS

Oxford 300D PU water-repellent lamination, 100% polyester.

GRAMMAGE

Padding 200 g/m²

FEATURES

All-weather work suit made of synthetic fabric, characterized by a woven structure that ensures mechanical resistance and durability. The polyurethane lamination applied to the surface provides water-repellent properties, improving protection against moisture and atmospheric agents. Its breathability and optimal body temperature retention make it a high-performance garment. High resistance to water penetration. Certified Class 3 for high visibility, the garment ensures the highest level of visibility in daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. Reflective bands sewn on the chest, sleeves, legs, and shoulders significantly increase operator visibility, improving safety during work activities. The high collar, with a fleece lining, increases the operator's thermal comfort. The zip-removable hood is designed to offer modular thermal insulation based on environmental conditions, while ensuring greater versatility of use and adaptability to different operational contexts. The 4 pockets, one of which is waterproof, make it functional and practical, allowing essential tools and items to always be within reach during work. The drawstring waist contributes to an ergonomic and customizable fit. The elasticated knit cuffs and heat-sealed seams are designed to ensure an ergonomic and snug closure, effectively limiting the penetration of liquids, wind, and other extreme atmospheric agents, contributing to the maintenance of the internal microclimate and the user's thermal comfort.

DETAILS

- High collar with fleece lining, effectively protecting the front cervical area;
- Foldaway hood, detachable via zip, deployable as needed to ensure protection from weather elements;
- Two lower pockets secured by flap and velcro, ensuring quick and convenient access to smaller items;

- Vertical chest pocket secured by covered zipper, water-resistant;
- Ankle opening with covered zipper;
- Elasticated knit cuffs, providing a snug fit at the wrist to prevent displacement during use;
- Waist with drawstring, for an ergonomic fit;
- Heat-sealed seams, preventing water penetration;
- Blue contrast inserts on leg bottom, sleeve bottom, waist, and shoulder yoke, for an improved aesthetic presentation of the garment even after prolonged use.

CLOSING

Zip covered by a flap fastened with snap buttons.

REFLEX

Double reflective bands sewn on chest, sleeves, legs, and shoulder yoke.
