TECHNICAL SHEET

HIGH VISIBILITY CLOTHING

MORGAN blouson

MC4123EC

MATERIALS
Twill Teflon 40% polyester and 60% cotton.

WEIGHT
Sleeve padding 180 g/m², body padding 220 g/m²

FEATURES
Work blouson made from durable twill with Teflon treatment, featuring a high cotton content that ensures natural thermoregulation. The fabric helps maintain the body's thermal balance, reducing the impact of environmental variations thanks to cotton's ability to interact with the internal microclimate. The Teflon treatment ensures resistance to water, stains, and dirt, making it perfect for everyday or professional use. Practical and cold-resistant, with a soft quilted lining. Certified Class 2 for high visibility, the garment ensures a medium-high level of visibility in daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. The upper part of the jacket is made from high-visibility fabric, contrasting with the lower part in dark fabric, a solution that improves visibility, as well as the garment's aesthetics and presentation even after prolonged use. The high windproof collar, with a fleece interior and a contrasting dirt-resistant edge, effectively protects the cervical area. Reflective bands sewn on the chest and sleeves significantly increase operator visibility, improving safety during work activities. The 5 pockets, including 2 hand warmers, ensure practicality and security for storing items. The elasticated cuffs are designed to ensure an ergonomic and snug fit around the wrist, effectively limiting the penetration of liquids, wind, and other extreme weather agents, contributing to the maintenance of the internal microclimate and the user's thermal comfort.

DETAILS
- Fleece inner collar, for high thermal comfort;
- Contrasting dirt-resistant collar trim, contributes to a better presentation of the garment even after prolonged use;
- 2 zippered chest pockets, the right one with a mobile phone holder closed with flap and velcro, allowing bulkier items to be stored without the risk of falling out;
- Retractable badge holder on the left;
- 2 handwarmer pockets with velcro closure, to ensure quick and convenient access to smaller items;
- Inner pocket with velcro closure, for safely storing small valuables;
- Contrasting dirt-resistant shoulder panels;
- Cuffs and jacket hem in elasticated knit, for an ergonomic closure that ensures a snugger fit.

CLOSING
Zip.

REFLEX
Reflective bands sewn around the chest and sleeves.
