

HIGH VISIBILITY CLOTHING

BANF jacket

MC4126

MATERIALS

Exterior: 4-way stretch ripstop, PU laminated, 92% polyester, 8% spandex.
Interior: nylon lining.

GRAMMAGE

160 g/m²

FEATURES

Work jacket made from 4-way stretch ripstop fabric, designed to offer maximum freedom of movement and abrasion resistance. The ripstop structure, with its characteristic anti-tear grid, ensures superior durability, ideal for dynamic activities and demanding environments. Polyurethane lamination provides the garment with a waterproof and windproof barrier, while maintaining good breathability. The garment is reversible, with one side in high-visibility fabric for increased safety in work environments or low-light conditions, and the other side in blue. Certified Class 3 for high visibility, the garment ensures the highest level of visibility in daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. Thanks to its waterproof and breathable properties, it offers extremely effective protection in adverse weather conditions. The windproof high collar, with a navy anti-dirt profile, effectively protects the cervical area. The thermo-welded and segmented reflective bands optimally adapt to body movements, offering greater comfort and freedom of action. More resistant and durable than traditional bands, they are strategically positioned on the chest, sleeves, and shoulders and significantly increase operator visibility, improving safety during work activities. The 5 pockets ensure high practicality and security for storing items, making the garment extremely functional.

DETAILS

Exterior:

- Navy anti-dirt profile on the collar, contributes to a better presentation of the garment even after prolonged use;
- Chest pocket closed with taped zipper, to ensure quick and convenient access to smaller items;
- 2 lower pockets closed with taped zipper;

- Cuffs and hem with elastic trim, for an ergonomic closure that ensures greater adherence.

Interior:

- 2 lower pockets and one chest pocket, closed with taped zipper;
- Taped zippers, complete the garment's waterproof protection, ideal for adverse weather conditions.

CLOSING

Zip.

REFLEX

Heat-sealed reflective bands at the waist, sleeves, and on the shoulders.
