

HIGH VISIBILITY CLOTHING

ICARUS trousers

MC4127EE

MATERIALS

100% polyester twill, two-layer TPU laminated.

WEIGHT

170 g/m², padding 100 g/m²

FEATURES

Work trousers made from a bilaminated twill fabric with a TPU membrane, offering a perfect balance of mechanical resistance, weather protection, and comfort. The twill gives the garment a robust yet flexible structure, while the TPU lamination ensures waterproofing, windproofing, and breathability, making it ideal for intensive use in adverse weather conditions. Good resistance to stress. The padded interior makes the garment suitable for low temperatures and ensures thermal comfort. Thanks to its excellent waterproofing and water vapor resistance properties, it offers extremely effective protection in adverse climatic conditions. Certified Class 1 for high visibility, the garment ensures a basic level of visibility in daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. The 8 pockets make it extremely functional and practical, allowing essential tools and items to always be within reach during work. The heat-sealed and segmented reflective bands optimally adapt to body movements, offering greater comfort and freedom of action. More resistant and durable than traditional bands, they are strategically positioned at the bottom of the legs and significantly increase operator visibility, improving safety during work activities.

DETAILS

- 2 external removable and floating tool pockets with 100% Nylon Oxford reinforcements, detachable with zipper, allow storing bulkier items without the risk of them falling out;
- 2 side pockets closed with flap and velcro;
- Multifunction pocket with integrated badge holder, closed with flap and velcro, on left leg;
- Multifunction pocket with tool loops, closed with flap and velcro, on right leg;

- 2 back pockets closed with flap and velcro, to ensure quick and easy access to smaller items;
- Lumbar protection, for additional protection;
- Reinforced leg cuff made of 100% Nylon Oxford, for increased durability over time;
- High-performance seams, to ensure greater strength and durability.
