

HIGH VISIBILITY CLOTHING ANDROMEDA jacket MC4128

MATERIALS

Clipper-TEX trilaminate, Twill. Removable inner insulation in 3M® Thinsulate.

GRAMMAGE

170 g/m², padding 150 g/m²

FEATURES

A work jacket made from bilaminated twill fabric with a TPU membrane, offering a perfect balance of mechanical resistance, weather protection, and comfort. The twill gives the garment a robust yet flexible structure, while the TPU lamination ensures waterproofing, windproofing, and breathability, making it ideal for intensive use in adverse weather conditions. Warm and waterproof, it offers thermal insulation thanks to the removable 3M® Thinsulate padding and high protection in extreme or particularly adverse weather conditions, such as rain and snow. Its breathability and optimal body temperature retention make it a high-performance garment. Certified Class 3 for high visibility, the garment ensures the highest level of visibility in daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. The high windproof collar, with a fleece lining, effectively protects the cervical area. The hood, detachable via zipper, adjustable with a drawstring and secured by Velcro, is designed for use in adverse environmental conditions, such as rain or wind. When not in use, it can be detached without creating bulk or compromising the operator's freedom of movement. The heat-sealed and segmented reflective bands optimally adapt to body movements, offering greater comfort and freedom of action. More resistant and durable than traditional bands, they are strategically positioned on the shoulders, sleeves, and chest. The 4 pockets ensure practicality and security for storing items, providing high functionality. The elasticated windproof cuffs, adjustable with Velcro, are designed to ensure an ergonomic and snug fit around the wrist, effectively limiting the penetration of liquids, wind, and other extreme weather elements, contributing to the maintenance of the internal microclimate and the user's thermal comfort.

DETAILS

- Fleece-lined collar, for high thermal comfort;
- Detachable hood with adjustable drawstring, secured by a zipper, usable as needed to provide protection from weather elements;
- 2 chest pockets with flap and velcro closure, one of which has a vertical pocket, to ensure quick and convenient access to smaller items;
- Retractable and removable badge holder;
- 2 side pockets with hidden zippers, allowing storage of bulkier items without the risk of them falling out;
- Elasticated windproof cuffs, adjustable with velcro, for an ergonomic closure that contributes to thermal comfort.
- Underarm vents with mesh lining and zipper closure, designed to promote ventilation and improve thermal regulation during activity;
- High-performance fully waterproof seams, completing the garment's waterproof protection, ideal for adverse weather conditions.

CLOSING

Waterproof zip with internal windproof flap.

REFLEX

Heat-sealed reflective bands on the waist, armholes, and shoulders. Retroreflective piping on the chest.

REMARKS

Given the current mixed stock, it is possible that this item will be delivered

with the restyled version (as shown in photo) and former version.
