TECHNICAL SHEET

HIGH VISIBILITY CLOTHING

STORM RUSH pilot jacket

MC4131EE

MATERIALS
Oxford 300 D, 100% laminated TPU 100% polyester with water repellent treatment.

WEIGHT
190 gr/m², padding 140 gr/m² on body and sleeves, padding 60 gr/m² on hood.

FEATURES
Pilot-style work jacket made of 300D Oxford fabric, known for its abrasion and tear resistance, ideal for intensive use. The TPU coating provides the garment with a waterproof and windproof barrier, while maintaining good flexibility and comfort. The padded interior makes the garment suitable for low temperatures and ensures thermal comfort. Thanks to its waterproof and water vapor resistance properties, it offers extremely effective protection in adverse weather conditions. Certified Class 2 for high visibility, the garment ensures a medium-high level of visibility in daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. It also ensures high resistance to heat dispersion, contributing to cold protection down to temperatures of -5°. The high windproof collar, with a microfleece interior, effectively protects the cervical area. The hood with quilted padding, adjustable with a drawstring, is designed for use in adverse environmental conditions, such as rain or wind. The heat-sealed and segmented reflective bands optimally adapt to body movements, offering greater comfort and freedom of movement. More resistant and durable than traditional bands, they are strategically positioned on the sleeves, chest, and shoulders. The 3 pockets make it functional and practical, allowing essential tools and objects to always be within reach during work The elasticated cuffs are designed to ensure an ergonomic and snug fit around the wrist, effectively limiting the penetration of liquids, wind, and other extreme weather agents, contributing to the maintenance of the internal microclimate and the user's thermal comfort. The side elastic at the waist ensures an ergonomic and comfortable fit.

DETAILS
- Microfleece inner collar for effective protection of the neck area;
- Soft quilted padding for high thermal comfort;
- Hood with quilted padding and drawstring, to ensure protection from the elements;
- Two lower pockets with water-resistant zippers, allowing storage of bulkier items without the risk of them getting wet;
- Vertical chest pocket with water-resistant zip, to ensure quick and convenient access to smaller items;
- Loop for gas detector attachment on the right;
- Elasticated cuffs for a snug fit that contributes to thermal comfort;
- Side elastic at the waist for an ergonomic and comfortable fit.

CLOSING
Double slider zip

REFLEX
Double heat-sealed and segmented reflective bands around the armholes. Single heat-sealed and segmented reflective band on the shoulders. Double heat-sealed and segmented reflective bands around the torso.

AVAILABLE COLOURS
EE - HI-VIS YELLOW/BLACK
