

HIGH VISIBILITY CLOTHING SUPER ESSENTIAL jacket MC4140E1

MATERIALS

Oxford 300 D, 100% polyester PU coated.

WEIGHT

190 g/m², padding 160 g/m²

FEATURES

Work jacket made from 300D Oxford fabric, known for its abrasion and tear resistance, ideal for intensive use. The polyurethane coating provides the garment with a waterproof and windproof barrier, while maintaining good flexibility and comfort. The insulated interior makes the garment suitable for low temperatures and ensures thermal comfort. Thanks to its waterproof and water vapor resistance properties, it offers extremely effective protection in adverse weather conditions. Certified Class 3 for high visibility, the garment ensures the highest level of visibility in daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. The high windproof collar effectively protects the neck area. The adjustable hood with drawstring is designed for use in adverse environmental conditions, such as rain or wind. When not in use, it can be stored inside the collar, without creating bulk or compromising the operator's freedom of movement. The reflective bands sewn on the chest and sleeves significantly increase the operator's visibility, improving safety during work activities. The 3 pockets make it functional and practical, allowing essential tools and items to always be within reach during work. The concealed elastic cuffs are designed to ensure an ergonomic and snug fit around the wrist, effectively limiting the penetration of liquids, wind, and other extreme weather elements, contributing to the maintenance of the internal microclimate and the user's thermal comfort. The side elastic at the waist ensures an ergonomic and comfortable fit.

DETAILS

- Soft quilted padding for high thermal comfort;
- Drawstring hood, usable as needed to provide protection from the elements;
- Two lower pockets with flap and snap button closure, for storing bulkier items;

- Vertical zippered chest pocket, for quick and convenient access to smaller items;
- Concealed elasticated cuffs for a snug fit that contributes to thermal comfort;
- Side elastic inserts at the waist for an ergonomic and comfortable fit.

CLOSING

Two-way zip covered by a flap, closed with snap buttons.

REFLEX

Double reflective bands sewn around the torso and sleeves.
