TECHNICAL SHEET

SOFTSHELL

NAVIGATOR blouson

MC4211L5

MATERIALS
Softshell 100% polyester, bonded with 144-filament microfleece.

WEIGHT
350 g/m²

FEATURES
Softshell work blouson, with microfleece interior, a technical garment designed to offer protection and comfort in all conditions. Made of softshell fabric, it guarantees resistance to wind and light rain, while maintaining lightness and breathability. The microfleece interior ensures warmth without adding bulk, ideal for cool and variable days. Warm, lightweight, and versatile, this blouson is the ideal choice for those who work outdoors and desire a garment that combines comfort, protection, and style. The design is engineered to combine functionality and practicality: the hood, removable via zipper and adjustable with a drawstring, allows adapting protection to different needs. Inside, the mesh fabric lining promotes breathability, keeping the body dry even during the most dynamic activities. The 3 pockets, two of which are hand-warmer pockets, make it functional and practical, allowing essential tools and objects to always be within reach during work. The reflective inserts applied along the central zipper and on the shoulders, front and back, increase the garment's visibility. The elasticated knit cuffs ensure a snug fit and protect from wind and weather conditions, while the drawstring at the hem allows the garment to be adjusted, for greater protection and an ergonomic fit suitable for different body types. The mélange inserts on the sides, underarms, and shoulders give a modern and distinctive touch, making the blouson not only functional but also aesthetically refined.

DETAILS
- Removable hood with zipper, adjustable with drawstring, usable as needed to provide protection from the elements;
- Two zippered handwarmer pockets, for quick access to small everyday items;
- Zippered chest pocket, for storing small valuables;
- Internal mesh lining, ensuring breathability and a pleasant sensation of constant thermal comfort;
- Elasticated knit cuffs, for an ergonomic and stable fit that prevents the entry of external weather elements.
- Mélange inserts on the sides, underarms, and shoulders;
- Drawstring at the bottom, for a fit adaptable to different body types.

CLOSING
Center zip and internal wind flap with end stop.

REFLEX
Reflective inserts along the central zip and on the front and back shoulders.
