

SOFTSHELL GARMENTS

CELEBRATION jacket**MC4213****MATERIALS**

Ripstop outer fabric made of 95% nylon and 5% spandex, 100% water-repellent polyester inner fabric.

GRAMMAGE

350 g/m²

FEATURES

Technical jacket designed to ensure durability, comfort, and protection during outdoor activities. The fabric composition, both outer and inner, offers excellent strength, elasticity, and freedom of movement, in addition to insulation and protection from weather elements. The front closure features a central taped and waterproof zipper, designed to prevent the entry of wind and rain and ensure constant protection even in adverse conditions. The jacket is also equipped with two side welt pockets, characterized by high-visibility lime-colored inserts that improve the operator's visibility during activity. Inside, there are two zippered pockets, ideal for securely storing small items, documents, or personal devices. The cuffs help improve the fit and insulate from the cold, completing an overall design intended to combine practicality, protection, and comfort.

DETAILS

- 2 side pockets with lime-colored inserts, increasing safety by making the operator more visible;
- 2 internal zippered pockets, allowing for safe storage of small items, documents, or devices without risk of loss;
- Cuffs, improve fit and limit the entry of cold air, increasing thermal comfort.

CLOSING

Taped central waterproof zip closure.

REFLEX

High visibility lime green inserts
