

WINTER KNITWEAR

DRAKE jacket

MC4215

MATERIALS

Anti-pilling, stretch, and stain-resistant fleece, with a brushed interior.

GRAMMAGE

250 g/m²

FEATURES

A modern-design work jacket, designed to offer comfort, protection, and freedom of movement in every situation. Made from stretch fabric with a dirt-repellent treatment and a brushed interior, it combines durability and softness, making it ideal for daily use even in demanding environments and at low temperatures. This jacket stands out for its versatility, making it suitable for various climatic conditions and work environments, with a technical and contemporary look. The ergonomic fit and raglan sleeves ensure greater freedom of movement and comfort during work activities. The 2 hand-warmer pockets make it functional and practical, keeping essential tools and items within reach during work. The brushed hood provides additional protection against the cold, while the elasticated trims on the hem and cuffs contribute to a secure and comfortable fit. The chest insert, treated with a high-frequency texture, offers effective wind protection.
