

## WEATHERPROOF CLOTHING

### MARMOT jacket

MC4225

#### MATERIALS

Softshell, tear-resistant ripstop Nylon

#### GRAMMAGE

Padding 100 g/m²

#### FEATURES

Work jacket designed to offer protection and comfort in any weather condition. The padding ensures effective thermal insulation without sacrificing lightness, making it ideal for cold and rainy environments. The body is made of tear-resistant Ripstop nylon, a strong and durable fabric, with polyester inserts bonded to fleece to ensure warmth and softness. The Softshell sleeves, high-frequency treated, offer additional protection against wind and abrasions, while maintaining flexibility and comfort. The jacket features a vertical chest pocket with a zipper closure for secure storage of items, and two practical and spacious lower pockets. The ergonomic design ensures freedom of movement during work, while the technical materials and robust construction provide resistance and protection from external agents. This jacket is the ideal choice for those seeking functionality, durability, and comfort in a versatile garment, suitable for all seasons.
