TECHNICAL SHEET

SOFTSHELL

STARFLEX ladies' jacket

MC4291PL

MATERIALS
Softshell 100% polyester bonded with fleece lining, breathable.

WEIGHT
310 g/m²

FEATURES
Work jacket in Softshell fabric, women's model, warm, practical and with a modern and sporty design, ideal not only for professional activities but also for outdoor use. Made with breathable materials, it offers comfort and protection in every situation, ensuring freedom of movement and resistance to atmospheric agents. This jacket is the perfect solution for those looking for a versatile, functional garment with attention to detail, capable of combining style and practicality in any context. Thanks to the high-performance, double-layer fabric, the jacket guarantees impermeability while promoting breathability, preventing sweat build-up and maintaining optimal body temperature, thus creating a comfortable internal microclimate for the wearer. The detachable sleeves with zipper allow the jacket to be transformed into a practical vest, adapting to different climatic and work needs. The side pockets and chest pocket are closed by heat-sealed zippers with a water-resistant reflective strip, ensuring protection and visibility even in low light conditions. In addition to these, there is an internal pocket, for a total of 4 pockets, which make it extremely functional and practical, allowing essential tools and items to always be at hand during work. The heat-sealed and segmented reflective bands adapt optimally to body movements, offering greater comfort and freedom of action. More resistant and durable than traditional bands, they are strategically positioned on the shoulders, further contributing to increased visibility. The elasticated knit cuffs ensure a comfortable fit and protect from wind and atmospheric agents, while the contrast color inserts on the shoulders, sleeves and bottom give a dynamic and modern look.

DETAILS
- Detachable sleeves with zipper, offer various usage options;
- 2 side pockets and 2 chest pockets closed by heat-sealed zipper, with water-resistant reflective strip, for quick access to small everyday items, which remain protected from water and humidity;
