

RAINWEAR

CAYENNE rain set

MC4313

MATERIALS

100% PVC coated Nylon

GRAMMAGE

185 g/m²

FEATURES

Work suit, consisting of a jacket and trousers, made of PVC-coated polyester, a material that guarantees protection and durability. Waterproof, windproof, resistant to tears and abrasions, it is also easy to clean. This suit offers a practical and reliable solution for those who work outdoors in adverse weather conditions. Thanks to its waterproof and breathable properties, it offers extremely effective protection in adverse weather conditions. The jacket features a foldaway hood with a drawstring, easily foldable thanks to its zip closure. The cuffs are elasticated and integrate an adjustable windproof system with a button, ensuring a perfect fit and protection from the elements. On the front, there are practical water-resistant pockets, ideal for storing small items without the risk of infiltration, while a drawstring at the hem allows for an adjustable fit. Heat-sealed seams guarantee total waterproofing, preventing any water penetration. The trousers feature an elastic waistband for a comfortable and secure fit. They have side pockets closed with snap buttons, which protect the contents from moisture. Here too, heat-sealed seams ensure complete protection against rain. The leg bottoms are adjustable with snap buttons, allowing the trousers to be adapted to footwear and improving protection against wind and water.

DETAILS

Jacket:

- Concealed drawstring hood with zip, deployable as needed to provide protection from weather elements;
- Elasticated, windproof cuffs adjustable with a button, for an ergonomic and stable fit that prevents the entry of external weather elements;
- Water-resistant pockets, for quick access to small everyday items, which are protected from rain and humidity;
