TECHNICAL SHEET

RAINWEAR

SUNCITY trousers

MC4315Q5

MATERIALS

Waterproof and breathable, tricot PU coated 100% polyester.

WEIGHT

190 g/m²

FEATURES

These work trousers are made from a fabric, that combinas polyester with a polyurethane layer that ensures waterproofing and breathability, offering protection against rain without sacrificing comfort. Thanks to its high elasticity and flexibility, the garment allows freedom of movement even in extreme cold conditions, adapting to the needs of those working in challenging environments. The fabric is also resistant to wear, abrasion, and tension, ensuring long-lasting durability even with intensive use. Thanks to its waterproofing and breathability properties, it offers extremely effective protection in adverse weather conditions. From a functional perspective, the trousers feature an elasticated waistband, which ensures a comfortable and secure fit. The heat-sealed seams, present both on the inside and outside of the leg, prevent any water infiltration, ensuring total protection against rain. This design makes them ideal for those seeking a practical, durable, and comfortable garment to tackle the most demanding weather conditions.

DETAILS

- Elastic waistband, for an ergonomic fit suitable for various body types;
- Taped seams on inner and outer leg, for additional protection from rain and adverse weather conditions.
