TECHNICAL SHEET

RAINWEAR

SUNCITY raincoat

MC4316Q5

MATERIALS

Waterproof and breathable, tricot PU coated 100% polyester.

WEIGHT

190 g/m²

FEATURES

This work coat is designed to offer waterproofing and breathability thanks to a fabric composed of a polyester base coated with a layer of polyurethane. This combination ensures effective protection against rain, while maintaining good breathability for comfort during activity. The coat is indeed robust and durable, resistant to wear, abrasion, and the stresses typical of intense work. Thanks to its waterproofing and breathability properties, it offers extremely effective protection in adverse weather conditions. Functionally, it features a retractable hood with an elastic edge, easily foldable and fastenable with snap buttons. The knee-length increases the body surface protected from external weather elements. The elasticated windproof cuffs ensure an effective seal against air and water infiltration, while the waterproof pockets allow objects to be stored safely even in the rain. All these details make the coat an ideal solution for those seeking protection, comfort, and freedom of movement in demanding work environments.

DETAILS

- Below-knee length;
- Foldaway hood with elasticated trim, secured by snap buttons, deployable as required for weather protection;
- Elasticated windproof cuffs, for an ergonomic and stable fit, preventing external weather entrance;
- Water-resistant pockets, for quick access to small everyday items, keeping them protected from rain and moisture.

CLOSING

Zip covered by a flap closed with snap fasteners.

AVAILABLE COLOURS

- H1 - HI-VIS ORANGE
- Q5 - DARK BLUE
