

THERMAL VEST

HARRYS bodywarmer

MC4412

MATERIALS

PVC coated nylon

GRAMMAGE

Padding 200 g/m²

FEATURES

This cold-weather work vest is designed to offer comfort and protection without compromising freedom of movement, making it ideal for dynamic activities. The soft patterned flannel lining ensures a pleasant feeling of warmth and helps make the garment cozy and comfortable. The PVC coating helps make the garment waterproof, durable, and easy to keep clean and tidy during the work shift. The insulation maintains the ideal temperature while keeping the garment breathable. This vest combines practicality and comfort, making it perfect for those seeking a versatile, durable, and detail-oriented garment, ideal for tackling outdoor work with maximum freedom of movement. The design is practical and functional: two lower pockets, closed with flaps and Velcro, feature hand-warmer openings, ensuring comfort and protection on colder days. On the chest, there is a small pocket with a covered zipper in a contrasting color, which adds a touch of style and allows small items to be stored securely. Inside, a pocket closed with Velcro offers additional space for accessories or documents. The 4 pockets make it extremely functional and practical, allowing essential tools and items to always be within reach during work.

DETAILS

- 2 lower pockets with flap and velcro closure, featuring hand-warmer openings, for quick access to small everyday items;
- Chest pocket with covered contrasting color zipper;
- 100% cotton flannel lining for increased thermal comfort;
- Internal pocket with velcro, for storing small valuables.

CLOSING

Anti-snap double-slider zip in a contrasting color, covered by a flap.

REFLEX

Reflective piping on the chest and shoulder yoke.
