TECHNICAL SHEET

THERMAL VEST

DARWIN bodywarmer

MC4416A9

MATERIALS
65% polyester and 35% cotton.

WEIGHT
170 g/m², padding 200 g/m²

FEATURES
Work vest made of polycotton, a breathable and durable material, designed to offer warmth and comfort without compromising freedom of movement. The presence of a percentage of cotton, combined with technical fibers, helps to perfectly balance protection and comfort, making the garment soft and breathable without compromising its robustness and mechanical resistance. The insulation maintains the ideal temperature while keeping the garment always breathable. The multi-pocket design makes it extremely practical for those who work outdoors or in cold environments, ensuring functionality and style. The garment features side hand-warmer pockets, ideal for protecting hands from the cold, and a chest pocket for a mobile phone, closed with a flap and velcro, which keeps the phone always secure. There is also a zippered chest pocket for practical storage of items, as well as an internal pocket closed with velcro for added protection. The 5 pockets make it extremely functional and practical, allowing you to always have essential tools and items at hand during work. Contrasting color inserts give it a modern and professional look, while the elasticated waistband ensures a comfortable and snug fit, improving wind protection. The double-slider zipper closure facilitates opening, making it versatile and customizable.
