

THERMAL VEST BOXTER bodywarmer MC4418

MATERIALS

100% polyester Taslon, PU coated.

GRAMMAGE

Padding 200 g/m²

FEATURES

Cold-resistant work vest, practical and warm, designed to ensure comfort and ample freedom of movement even on the coldest days. Made from durable and breathable fabric, it offers functionality and style thanks to its refined details and integrated technical solutions. The PU-coated Taslon polyester, from which the vest is made, guarantees high performance and comfort. The polyurethane coating creates a protective barrier that ensures waterproofing and wind resistance, keeping the body dry even in adverse weather conditions. The Taslon fabric, robust and abrasion-resistant, offers long durability and withstands the wear and tear typical of work environments. The material maintains good breathability, preventing internal moisture buildup and promoting comfort during activity. The padding maintains the ideal temperature while keeping the garment breathable. The vest features a collar with a wind flap, which provides greater protection for the cervical area. On the chest, there is a covered vertical pocket with a zipper closure, while the covered lower pockets, also zipper-closed, offer secure space for everyday items. Inside, two additional pockets provide further practicality: one closed with a zipper and the other with Velcro. The 5 pockets make it extremely functional and practical, allowing essential tools and items to always be within reach during work. The features are completed by a PVC badge holder with a snap button on the right side. Contrast-colored inserts on the sides and shoulder yoke, front and back, give it a modern and professional look, while the adjustable waist with Velcro allows for a customized fit for optimal comfort.

DETAILS

- Collar with wind flap, for greater protection of the anterior cervical area;
- Vertical covered chest pocket with zipper, for quick access to small everyday items;
- Two covered lower pockets with zippers, for storing bulkier items;
- Two internal pockets, one zippered and the other with velcro, for storing small valuables without the risk of them falling out;
- PVC badge holder with snap button on the right side;
- Contrast color inserts on the sides and front/back shoulder yoke;
- Adjustable waist with velcro, for an ergonomic fit suitable for different body types.

CLOSING

Anti-snag zip in a contrasting color.

REFLEX

Reflective inserts on the shoulder yoke. Piping on the back of the shoulders.
