

MULTI-FUNCTIONAL THERMAL GARMENTS

TRIAL jacket

MC4713

MATERIALS

Twill Stretch 100% polyester laminated PU.

GRAMMAGE

270 g/m², padding 120 g/m²

FEATURES

Work jacket, 3-in-1 model, waterproof and windproof, designed to ensure waterproofing, breathability, and high performance in terms of body thermoregulation, also thanks to the PU lamination. With its versatile structure, it is ideal for tackling variable weather conditions, offering protection and comfort even in the harshest temperatures. Its minimal and sporty design makes it perfect for the modern craftsman and for those who desire a functional garment for outdoor activities. The detachable quilted inner jacket, soft and comfortable, ensures thermal insulation and can be worn separately, increasing the garment's practicality. Thanks to its waterproofing and breathability properties, it offers extremely effective protection in adverse weather conditions. The outer jacket is equipped with a retractable hood adjustable with a drawstring. The 5 pockets make it extremely functional and practical, allowing you to always have essential tools and items within reach during work. The elasticated cuffs adjustable with velcro and the heat-sealed seams guarantee total protection against wind and rain. The reflective inserts on pocket profiles, sleeves, and shoulders increase the garment's visibility. The inner jacket, detachable with a zipper, is equipped with 3 pockets and anti-abrasion elasticated knit cuffs, which ensure comfort and durability. This garment represents the ideal solution for those seeking versatility, protection, and style in a single product.

DETAILS

Outer jacket:

- Stowable hood, adjustable with a drawstring, usable when needed to ensure protection from weather elements;
- Right chest pocket, water-resistant, zip-closed, with badge holder loop;
