

MULTI-FUNCTIONAL THERMAL GARMENTS

THERMO multi-pocket jacket

MC4716Q7

MATERIALS

Fabric 65% polyester, 35% cotton.

WEIGHT

Padding 160 gr/m²

FEATURES

Multi-pocket blouson designed for those who want a work garment that combines comfort, practicality, and refined style. Made from a polycotton blend fabric, with light and soft padding that ensures warmth without bulk, making it comfortable to wear even for long hours. The cotton content, combined with technical fibers, helps to perfectly balance protection and comfort, making the garment soft and breathable without compromising robustness and mechanical resistance. The design is extremely functional: the zip-off sleeves transform the blouson into a versatile garment, suitable for various weather conditions. The 5 pockets make it functional and practical, allowing essential tools and items to always be within reach during work. Elasticated cuffs ensure a secure and comfortable fit, while reflective piping on the shoulder yoke increases visibility, improving safety in work environments. This blouson is functional, warm, and breathable, with a refined look that doesn't sacrifice practicality.

DETAILS

- Zipper-detachable sleeves, allowing the jacket to transform into a vest when temperatures rise, ensuring comfort in every season;
- Velcro-closure chest pocket with pen holder, for quick access to small items;
- Zipper-closure chest pocket, for storing small valuable items without the risk of them falling out;
- Handwarmer pockets, for a pleasant additional feeling of warmth;
- Internal pocket;
- Elasticated cuffs, for an ergonomic and stable fit that prevents the entry of external weather elements.

CLOSING

Zip covered by a flap secured by metal snap buttons.

REFLEX

Reflective piping on shoulder.
