

MULTI-FUNCTIONAL THERMAL GARMENTS

TRIAL trousers

MC4717

MATERIALS

Twill Stretch 100% polyester laminated PU.

FEATURES

Work trousers, rainproof and windproof, designed to ensure waterproofing, breathability, and high performance in terms of body thermoregulation, also thanks to the PU lamination. With its versatile structure, it is ideal for tackling variable climatic conditions, offering protection and comfort even in the harshest temperatures. The minimalist and sporty design makes it perfect for the modern craftsman and for those who desire a functional garment also for outdoor activities. Made with robust materials and designed for intensive use, these trousers combine functionality and comfort, making them ideal for those who work in dynamic environments and need freedom of movement without sacrificing practicality. Thanks to their waterproofing and breathability properties, they offer extremely effective protection in adverse climatic conditions. The elasticated waist with a drawstring closure ensures a comfortable and adjustable fit, easily adapting to different needs. The zippered side pass-through pockets offer security for personal items, preventing them from falling out during movement, while the rear pocket closed by a flap and velcro adds additional space to store tools or accessories in a protected manner. Reflective fabric inserts on the thighs and rear pocket flap increase visibility.

DETAILS

- Elasticated waist with drawstring closure, for an ergonomic fit adaptable to various body types;
- Zippered side pass-through pockets, for quick access to underlying layers;
- Rear pocket with flap and Velcro closure, for storing small everyday items.
