

MULTI-FUNCTIONAL THERMAL GARMENTS

SIBERIAN jacket

MC4719

MATERIALS

100% waterproof PVC-coated polyester

GRAMMAGE

190 g/m², padding 150 g/m²

FEATURES

Work jacket made of PVC-coated pongee polyester, a fabric that guarantees total waterproofing and wind protection, making it ideal for facing extreme weather conditions such as heavy rain and snow. The garment is warm and breathable, designed to maintain optimal thermoregulation and offer comfort even during long hours of use. Thanks to its robust structure and numerous multi-function pockets, this jacket represents a high-performance solution for those who work outdoors in challenging environments. Thanks to its waterproofing and breathability properties, it offers extremely effective protection in adverse weather conditions. The design includes a practical and adjustable retractable hood with a drawstring, which ensures protection when needed. The 6 pockets make it extremely functional and practical, allowing essential tools and items to always be within reach during work. For comfort, the jacket is equipped with elasticated knit windproof cuffs. All details are designed to guarantee functionality, protection, and practicality, without sacrificing comfort.

DETAILS

- Foldaway hood with drawstring, deployable as needed for weather protection;
- Two lower pockets secured with flap and velcro, for quick access to small everyday items;
- Two chest pockets secured with flap and velcro, the left one featuring a retractable badge holder;
- Additional vertical zippered pocket;
- Internal pocket secured with velcro, for storing small valuables without the risk of them falling out;
- Windproof cuffs in elasticated knit, for an ergonomic and stable fit that prevents the entry of external weather elements.

CLOSING

Zip covered by a windproof flap fastened with Velcro.
