TECHNICAL SHEET

MULTI-FUNCTION COLD-WEATHER JACKETS

SIBERIAN split jacket

MC4720P0

MATERIALS
Outer jacket: 100% PVC-coated polyester.
Inner jacket: 100% polyester.

WEIGHT
180 g/m²

FEATURES
Work jacket made from versatile fabric designed to ensure maximum safety for those working in hazardous environments. Thanks to its waterproof and breathable properties, it offers extremely effective protection in adverse weather conditions. The PVC-coated fabric gives the garment high resistance to water penetration, making it particularly suitable for use in harsh environments and adverse weather conditions, without compromising the material's durability and flexibility. The 4-in-1 jacket is designed for maximum versatility for use in variable weather conditions. Its modular structure allows for various configurations thanks to the inner jacket with detachable sleeves and numerous multi-function pockets, which enhance its operational practicality. The possible combinations, thanks to the detachable inner layer, allow adaptation to different seasons, making the garment suitable for continuous year-round use. The outer jacket features a foldaway hood, designed for use in adverse environmental conditions such as rain or wind. When not in use, it can be stored inside the collar, without creating bulk or compromising the operator's freedom of movement. Its 4 pockets make it functional and practical, allowing essential tools and items to always be within reach during work. The inner jacket also has 3 pockets, for a total of 7 across both garments. The knitted windproof cuffs are designed to ensure an ergonomic and snug fit around the wrist, effectively limiting the penetration of liquids, wind, and other extreme weather elements, contributing to the maintenance of the internal microclimate and the user's thermal comfort.

DETAILS
Outer Jacket:

- Stowable hood with drawstring, provides protection from rain only when needed, maintaining a clean look when folded away;
- Side pockets and three-dimensional pockets covered by waterproof flaps closed with Velcro, offer extra space and keep contents dry even in the rain;
- Pen holder and cell phone holder on the right, keeps frequently used items organized and easily accessible;
- Concealed badge holder on the left, allows the badge to be displayed only when necessary, avoiding bulk;
- Waist drawstring, allows the jacket to be adjusted to the body, improving comfort and wind protection;
- Hand warmer pockets and knitted windproof cuffs, keep hands warm and prevent cold air from entering through the sleeves.

Inner Jacket:

- Detachable with buttons and usable separately, offers versatility thanks to different usage options;
- Side pockets, add practical space for small items even when only the inner jacket is used;
- Detachable sleeves with zipper, quickly transform the garment into a vest, adapting it to varying temperatures;
- Inner pocket, offers a protected internal space for valuables.

CLOSING
Snap button closure.
