TECHNICAL SHEET

MULTI-FUNCTIONAL THERMAL GARMENTS

CONTENDER jacket

MC4724QN

MATERIALS

100% polyester Oxford 300 D, milky PU coated, waterproof

WEIGHT

Padding 180 gr/m²

FEATURES

Work jacket, 4-in-1 model, waterproof and windproof, designed to ensure total waterproofing and withstand particularly adverse weather conditions, thanks to its milky PU coating. This treatment provides a matte finish and a soft touch, enhancing comfort and perceived quality. In addition to protection from rain and wind, the jacket ensures excellent body temperature retention, thermal insulation, and comfort thanks to the quilted inner jacket. The numerous multi-function pockets ensure practicality and organization, while the robustness of the Oxford 300D fabric provides good resistance to stress and wear. Thanks to its modular structure, it offers unique versatility: the detachable sleeves and hood allow the garment to be adapted to different needs, the outer jacket ensures waterproofing and resistance to atmospheric agents, while the quilted inner jacket provides warmth and comfort, transforming the product into a perfect solution for every season. The two jackets can be worn separately or together, ensuring protection and comfort in every season. The fourth option is the possibility of wearing the garment as a vest, thanks to the detachable sleeves of the inner jacket, ideal for milder days or activities requiring greater freedom of movement. Thanks to its waterproof and breathable properties, it offers extremely effective protection in adverse weather conditions. Designed to offer thermal insulation and protection in environments with temperatures down to -5°C. The reflective bands sewn onto the garment ensure the operator's visibility in low-light conditions or in the presence of direct light sources, such as vehicle headlights. This feature is particularly effective even in in moderate-risk situations. The outer jacket features a retractable hood with drawstring and Velcro, and a fleece inner collar for added warmth. Its 5 pockets make it functional and practical, allowing essential tools and items to always be within reach during work. The reflective band on the waist and armholes, and the contrasting reflective

inserts on the shoulders, sleeves, and chest contribute to increasing operator visibility. The adjustable elasticated cuffs with Velcro and the elasticated waist ensure a perfect fit. The inner jacket, detachable via zipper, is made with elasticated knitted cuffs, waist, and collar for comfort and wind protection. It features detachable sleeves via zipper, and 4 additional pockets, both internal and external, making it practical and versatile. Reflective band on the waist and armholes, contrasting reflective inserts on the shoulders and sleeves.

DETAILS

Outer jacket:

- Foldaway hood with drawstring and velcro, deployable as needed to ensure protection from weather elements;
- Fleece-lined collar, for high and constant thermal comfort;
- 2 high pockets closed with flap and velcro, the right one featuring a vertical pocket closed by a water-resistant zip and a concealed badge holder. All the space you need for everyday items, from the smallest to the bulkiest;
- 2 handwarmer pockets covered by a water-resistant flap, for additional thermal comfort; items stored here will be protected from water and humidity;
- Internal pocket closed with velcro, to store small valuable items without the risk of them falling out;
- Elasticated cuffs adjustable with velcro, for an ergonomic and stable fit;
- Elasticated hem, for an ergonomic and comfortable fit.

Inner jacket detachable via zip:

- Elasticated knit cuffs, waist, and collar, for a close fit that ensures protection from adverse weather conditions;
- Detachable sleeves via zip, allowing the jacket to be transformed into a vest when temperatures rise, ensuring comfort in every season;
- 2 internal pockets;
- 2 handwarmer pockets.

CLOSING

Central two-way zip secured by a wind flap, snap buttons, and Velcro.

REFLEX

Outer jacket: reflective band at waist and sleeves, contrasting reflective inserts on shoulders, sleeves, and chest. Inner jacket: reflective band at waist and armholes, contrasting reflective inserts on shoulders and sleeves.
