TECHNICAL SHEET

MULTI-FUNCTIONAL THERMAL GARMENTS

PATROL advance blouson

MC4728Z9

MATERIALS
100% Nylon, PU coated.

WEIGHT
Padding 230 gr/m²

FEATURES
Work jacket made of PU-coated nylon, a technical material that ensures waterproofness and durability, ideal for facing adverse weather conditions. The inner padding ensures warmth and comfort, making the garment perfect for cold seasons, without compromising breathability. The design is conceived for maximum practicality: the retractable hood, secured with velcro and adjustable with a drawstring and stoppers, offers protection when needed and can be easily folded away. The zip-off sleeves transform the jacket into a vest, increasing versatility. For a secure fit, there are elasticated cuffs and waist. The jacket features 4 multi-function pockets, making it versatile and practical. In summary, a waterproof, warm, and versatile garment, ideal for those seeking protection, practicality, and comfort in all weather conditions.

DETAILS
- Foldaway hood secured with velcro, adjustable with drawstring and stoppers, usable when needed to provide protection from weather elements;
- Elasticated cuffs and waist for an ergonomic, stable, and close-fitting design, maintaining constant thermal comfort;
- Detachable sleeves with zip, allowing the jacket to transform into a vest when temperatures rise, ensuring comfort in every season;
- Zippered chest pocket with a badge holder loop on the right and a pen pocket on the left;
- Two zippered handwarmer pockets for quick access to small everyday items;
- Internal vertical zippered pocket and internal velcro-closure pocket for storing small valuables.

CLOSING
Contrasting color zip.
