

COOL TOUCH SERIES

COOL TOUCH blouson

MC4741

MATERIALS

Oxford 150D T400 TPU laminated, 100% polyester

GRAMMAGE

255 g/m², padding 160 g/m²

FEATURES

Work blouson made of multi-purpose fabric, TPU laminated, ensures an effective barrier against water and wind, while maintaining good breathability. Thanks to its mechanical elasticity, the fabric adapts to movements without deforming, offering comfort and durability. The garment is designed to ensure maximum safety for those working in environments where exposure to adverse weather conditions is constant. The garment offers improved visibility in medium-risk environments, contributing to operator safety in variable light conditions. Thermo-welded and segmented reflective bands on the armholes increase operator visibility, improving safety during work activities. They adapt optimally to body movements and are resistant and durable. The padding makes the garment ideal even for the harshest climates. The foldaway hood is designed for use in adverse environmental conditions, such as rain or wind. When not in use, it can be stored inside the collar, without creating bulk or compromising the operator's freedom of movement. The 3 pockets ensure practicality and security for storing objects. Velcro-closed cuffs are designed to ensure an ergonomic and snug fit around the wrist, effectively limiting the penetration of liquids, wind, and other extreme weather agents, contributing to the maintenance of the internal microclimate and the user's thermal comfort. OUTER FABRIC WATERPROOFNESS: 4 out of 4 | maximum achievable level (resistance up to 20 kPa) = perfect seal even in extreme conditions. BREATHABILITY: 4 out of 4 | maximum achievable level = promotes the passage of moisture so that it does not remain trapped in the padding, allowing it to perform optimally and ensuring the highest possible comfort.

DETAILS

- Front closure with zip covered by a flap, fastened with snap buttons;
- Foldaway hood with drawstring and fleece inner collar, to offer maximum protection to the neck area even in adverse weather conditions;
- Soft padding, ideal for ensuring comfort and protection even at low temperatures;
- Left chest pocket closed with flap and velcro;
- One lower pocket closed with a snap button, to ensure quick and convenient access to smaller items;
- One lower pocket closed with velcro;
- Cuffs closed with velcro, for an ergonomic closure that contributes to thermal comfort;
- Elastic waistband.

AVAILABLE COLOURS

- Q5 - Dark blue
- Z9 - Black

SIZES

	In stock
	On production
	Made to order
	Tailor made

FIELDS OF USE

- > Agriculture - gardening - forestry
- > Construction - road works
- > Light industry
- > Heavy industry
- > Works at a height
- > Logistics
- > Tertiary - trades

MAINTENANCE

Please follow the recommended washing instructions.

QUANTITY PER CARTON

10
