

SOCKS

WINTER socks

MC4933

MATERIALS

40% polyester, 40% cotton, 17% nylon, 3% elastane.

FEATURES

Sock designed to offer comfort, warmth, and durability. The combination of polyester and cotton ensures a perfect balance between softness and thermal capacity, keeping feet warm and dry. The presence of a percentage of cotton, combined with technical fibers, helps to perfectly balance protection and comfort, making the garment soft and breathable without compromising robustness and mechanical resistance. Robust, durable, and elastic, they offer a snug fit without constriction. Thanks to its structure, this sock is ideal for tackling winter with maximum comfort, offering protection and practicality in every situation, even on the coldest days.
