

## SOCKS

### SKY socks

MC4934

#### MATERIALS

56% wool, 24% acrylic, 17% nylon, 3% elastane.

#### FEATURES

A sock made with a balanced fiber composition designed to offer comfort, durability, and adaptability. The presence of wool ensures natural warmth and breathability, ideal for keeping feet dry and protected on cold days. Acrylic helps improve softness and lightness, while nylon ensures robustness and long-lasting durability, preventing wear and deformation. Elasticity ensures a perfect fit, adapting to the foot's shape without constricting. The result is a comfortable, durable, and practical sock, designed for those who seek quality and functionality in every detail, ideal for cold winter days.

#### QUANTITY PER CARTON

100

#### AVAILABLE COLOURS

● B0 - Grey
