FEATURES
These disposable shoe covers are made from three-layer SMS fabric, which combines lightness, strength, and protection. The polypropylene ensures impermeability and a barrier against dust and liquids, while the multi-layer structure provides greater robustness and comfort compared to traditional models. Thanks to their size, they provide full coverage for most types of footwear, making them ideal in environments where hygiene and safety are essential. Easy to put on, they represent a practical and reliable solution for shoe protection.
